

Bermuda's Bank of Choice for Fintech

The way we interact and transact is changing. We get it, and we're on board. Clarien Bank is the most enterprising Bermuda bank for companies operating in and around the emerging fintech and digital assets sector.

The Clarien Advantage

Our difference is the thoughtful, consultative approach taken to understand your needs while enabling compliance within Bermuda's regulatory framework. Whether you're managing an innovative start-up or revolutionising the world of finance, we'll work with you to build the banking model you require to launch or grow your business and deliver superior service, protection and execution in the process.

What Our Customers are Saying

"Many banks claim to embrace new technologies, however few have the established frameworks and risk parameters for cryptocurrency assets to be freely traded and exchanged within the financial services sector as Clarien does. Clarien provides a gateway for digital assets to move legitimately into the mainstream Financial Services sector. Working with Clarien to establish Bittrex Global's Bermuda entity has made it seamless and straightforward in expanding our global exchange to Bermuda."

Stephen Stonberg, CFO/COO, Bittrex Global

"The Clarien support model has been a key reason why we view them as an essential partner as we grow our global business, from our base in Bermuda. Having easy access to skilled people who take the time to understand our business model is a major differentiator."

Luciano Canzanella,
Founder/Director, Parabolic Digital Holdings

"Hub Culture has been banking with Clarien in Bermuda for over ten years, and we have found the personal level of service and the willingness to listen to our unique needs to be incredibly important in helping our business grow around the world. With Clarien, we have found a great financial partner that works hard to understand our business and the role it plays in Bermuda and beyond."

Stan Stalnaker, Chief Strategy Officer, Hub Culture

"We see Clarien Bank as a pioneer in the provision of banking solutions for Bermuda registered fintech companies, and we are excited to work with them as we expand our operations and deliver our products and services to customers."

Chief Operating Officer, Stablehouse
