See links for more details:  
[Clarienbank.com/fees](https://clarienbank.com/fees)

Check deposit rates under Rates & Fees: <https://clarienbank.com/informationcentre/>

### **Can I link my debit card to my demand account?**

Yes, you can link your BMD or USD demand account to a specific BMD or USD debit card. Iron Kids also has its own specific debit card.

### **What fees are associated with the demand accounts?**

Savings accounts are subject to maintenance fees, compliance fees and paper statement fees. However some exemptions do apply.

Chequing accounts are subject to maintenance fees, compliance fees and paper statement fees and other Cheque processing fees. Please refer to fee schedule for specific fee amounts.

### **Can I open a savings or checking account online?**

Yes, you can open a savings or chequing via our online banking platform iBank. This feature is only available for retail customers opening a sole account. You can also open CDs and other deposit products.

### **How can I access my savings or chequing account?**

You can access your account via iBank using the web browser version or our mobile banking option. You can also use your debit card via an ATM or any merchant that accepts MasterCard.

### **How can I deposit into my savings or chequing account?**

You can deposit into your account via ATMs or via online using iBank or any other institutions online banking via domestic transfer. Funds can also be received internationally by wire transfer.

### **Are my funds protected?**

All BMD deposits are insured via the BDIC for up to \$25,000. For specific information please refer to the BDIC website: <https://www.bdic.bm/>

## Features & Benefits:

- ✓ First time home buyers could be eligible for HomeStart Initiative designed for Bermudians that lack the 25% deposit – conditions apply

## Additional Information

- ✓ HomeStart is an initiative by Clarien Bank and the Bermuda Housing Corporation (BHC) to help more Bermudians own their home. It is designed to assist those who are able to make repayments but lack the funds for a 25% deposit. If you're Bermudian and a BHC tenant or client, you may be eligible for a Clarien mortgage with up to 100% financing – with no down payment!
- ✓ Applicants must be Bermudian and not previously have owned or have partial ownership in a home. Trusts and other forms of ownership are not eligible
- ✓ A list of currently available HomeStart properties can be found on the BHC website ([www.bhc.bm](http://www.bhc.bm)) under the HomeStart tab
- ✓ For further details, contact [homestart@bhc.bm](mailto:homestart@bhc.bm)

### Features and Benefits

- ✓ When your home needs enhancements, Clarien Bank can help you finance small- to medium-scale renovations (typically less than \$100,000) using your home equity as security.
- ✓ Use the equity built up in your home to improve your Kitchen or Bathroom
- ✓ Update a Home Office for Working From Home

### Applicable Fees:

- Valuation Administration Fee
- Origination Fee
- Increase Loan to Pay Insurance Premiums Administration Fee
- Late Loan Payment Fee
- Other fees may apply

See link for more details: [Clarienbank.com/fees](https://clarienbank.com/fees)

Interest Rates	<p><b>Comprised of Base Rate + Spread</b></p> <p><b>Note:</b> Base rates change over time</p> <p><b>Note 2:</b> Effective interest rate is comprised of base rate + spread rate which varies by product</p> <p><b>Note 3:</b> Refer to Base Lending rate on Clarien Bank public website under Rates and Fees:</p> <p><a href="https://clarienbank.com/informationcentre/">https://clarienbank.com/informationcentre/</a></p>

- Research
- Other fees may apply

## Features & Benefits:

- ✓ Advanced EMV/Chip Technology
  - Improved security with an EMV-compliant chip card (Chip and Signature)
  - Card information is stored in the EMV-compliant chip, preventing extraction of card information by fraudsters
  - This technology reduces possibility that card information can be cloned and used by fraudsters
- ✓ Tap & Pay Payments
  - Tap & Pay enhances the purchase experience by providing speed and convenience for cardholders with signature not required in most cases
  - Ease of use as the card never leaves your hand at the checkout register
  - No need to carry idle cash for small volume purchases
- ✓ SecureCode for added protection for your online purchases
  - The additional protection of MasterCard® SecureCode provides peace of mind when shopping online
  - Registration will be available upon card receipt

See link for more details: [Clarienbank.com/fees](https://Clarienbank.com/fees)

## EMV

EMV stands for Europay®, MasterCard®, and Visa®. It is the global standard for chip-based transactions. It is a joint effort between Europay®, MasterCard® and Visa® to ensure security and global acceptance so that MasterCard® and Visa® cards can continue to be used everywhere.

## What is a Chip Card?

A chip card is a standard-size plastic card that contains an embedded microchip as well as the traditional magnetic strip. The chip encrypts information to increase data security when making transactions at a chip-enabled terminal.

## Can I use the EMV-compliant chip Card overseas?

Yes, you can use this card for overseas transactions. In Europe and Canada you will especially see merchant acceptance using a small device with a keypad, a screen and a slot to insert your card. Upon successful completion of your transaction, you will be prompted to remove your card from the terminal and you will receive a confirmation receipt. Keep your receipt and check it against your statement later.

## Can I use my card at kiosk/train stations?

Transactions at kiosk or train stations require real-time authentication. If terminals are not equipped to do so, you will need to see an attendant to have your card swiped by their online terminal.

## How do I obtain a PIN to use with my new card?

Your new PIN card may be obtained by following the instructions of the label affixed to the card when received. Please follow the prompts and remove the label when completed.

## When can I start using my replacement card?

Once you obtain your MasterCard Debit Card, you will need to Activate and PIN the debit card by following the provided instructions. Once your card has been activated and the PIN enabled, you'll need to wait for 30 minutes while the bank system is updated to include your account and funding information. Following that you will be able to use your debit card on Clarien Bank's iAtm network island-wide.

## What should I do with my current card?

Upon receipt of your replacement card, please cut (ideally shred) and securely dispose of your current card.

## MasterCard® Tap & Pay

MasterCard® Tap & Pay is a "contactless" feature included on all Clarien Bank MasterCard® cards for no added fee. It lets you pay for purchases at MasterCard® *Tap & Pay* — accepting locations without having to swipe your card and, in most instances, a signature is not required. It allows cardholders to make payments without having to hand over, dip or swipe a payment card. To make a payment, the cardholder simply taps their *Tap & Pay* card onto a *Tap & Pay* terminal. The details are read from the card over a contactless interface using radio frequency communications and a transaction is performed over the existing MasterCard® payment networks and infrastructure.

## Is MasterCard® Tap & Pay secure?

Your Clarien Bank MasterCard with *Tap & Pay* features multiple layers of protection. Transactions continue to be safe and secure and because the card does not leave your hand, you're in control.

### How does MasterCard® *Tap & Pay* work?

In addition to a magnetic stripe for traditional transaction processing, your new Clarien Bank MasterCard® card with *Tap & Pay* includes a small radio antenna. This antenna allows you to tap your card at MasterCard® *Tap & Pay* readers to pay for small purchases – typically under \$25. Each merchant has its own maximum limits for *Tap & Pay* transactions and a signature may still be required in some instances. In the event that your *Tap & Pay* transaction cannot be completed, swipe your card to complete the transaction with a signature.

### Are there transaction limits for using MasterCard® *Tap & Pay*?

MasterCard® *Tap & Pay* is designed for small purchases under \$25. It's fast, convenient and secure, and perfect for use at grocery stores, pharmacies, gas stations, fast food restaurants, convenience stores, coffee shops and vending machines. In the event that your Clarien Bank MasterCard® *Tap & Pay* transaction cannot be completed, swipe your card to complete the transaction with a signature.

### How do I know if my card has the MasterCard® *Tap & Pay* feature?

All Clarien Bank MasterCard® cards contain the *Tap & Pay* feature. To be certain that your card does in fact contain the feature, look for one or both of these symbols on either the front or back of your card.

### How will transactions appear on my statements?

Transactions are authorized, processed and billed in the same secure way as all debit transactions. Transactions will appear as a regular line item on your statement.

### Can my card be charged by accident or multiple times?

Your Clarien MasterCard® card must be placed very close to a MasterCard® *Tap & Pay* reader to complete the transaction. Simply walking by a checkout that has a *Tap & Pay* reader will not cause your card to be charged. In addition, if your card is waved in front of a reader more than once, you will only be billed once.

### Where can I “tap” my Clarien MasterCard® card with *Tap & Pay*?

Your Clarien MasterCard® can be used both on island and off island. There are over 50 locations locally and 32 million outlets worldwide.

#### MasterCard® SecureCode

MasterCard® SecureCode is added protection that keeps your transactions private. It utilizes a private code for your MasterCard® account that gives you an additional layer of online shopping security.

### How many online retailers support SecureCode?

More than 350,000 online retailers support transactions made with SecureCode. Look for the logo when you're providing your payment information.

### How do I begin using MasterCard SecureCode?:

Refer to the mailer attached to your Debit card; registration is available upon receipt.

### Where can I use my card?

Anywhere an online merchant accepts MasterCard® SecureCode. These websites will accept MasterCard® but if your card is registered for SecureCode, you will be asked for your MasterCard® SecureCode Password before you can complete your purchase.

CLARIEN VISA CREDIT CARDS

See link for more details: [Clarienbank.com/fees](http://Clarienbank.com/fees)

## What are contactless payments?

Contactless payments use short-range wireless technology to provide fast, secure communication between contactless enabled cards and contactless-enabled checkout terminals. When your customers tap their contactless Visa card at a contactless-enabled checkout terminal, the payment is processed using the same dynamic security technology as with chip card payments. Each transaction is accompanied by a one-time code that securely protects your payment information.

## What does the or mean?

When shown on a card, the EMVCo Contactless Indicator\*  means the card has the capability to make contactless payments.

When shown at a merchant, the Contactless Indicator  means a merchant accepts contactless payments.

The EMVCo Contactless Symbol\*  shows where to tap your contactless card or payment-enabled device on the checkout terminal to make a contactless payment

## How do I know if my card is a contactless-enabled card?

Look for the Contactless Indicator  on your card to know if your card has the technology to make contactless payments

## Can I be charged twice if I have more than one contactless card?

No. Contactless terminals will only communicate with one card at a time. If you have more than one contactless card in your wallet, you should tap the individual card you want to use, rather than tap your whole wallet.

## What are the benefits of contactless payments?

Contactless payments are fast and convenient to use in places where you need to pay on the go, such as fast food restaurants, grocery stores, convenience stores and more.

Contactless payments are secure because just like a chip card, each transaction is accompanied by a one-time code that protects your payment information.

Unlike with cash, you can keep better records of your purchases with your contactless Visa card or payment-enabled device. You can still do everything you would do with another Visa card, including adding a tip, getting cash back (where available), and more.

## I heard people can “skim” information off my contactless card. What does that mean?

For every contactless transaction, a transaction-specific, one-time code is created that secures the cardholder’s payment information. The code cannot be re-used by fraudsters even if they were somehow able to get ahold of it. The information would be useless to them.

## Are contactless payments safe?

Yes. Your contactless card or payment-enabled device is safe for a number of reasons:

Just like with a chip card, each transaction is accompanied by a one-time code that securely protects your payment information.

You can’t pay accidentally – your card or device must be within 2.5-5 cm of the terminal for the transaction to occur (and you won’t be billed twice, even if you accidentally tap twice).

CLARIEN DIGITAL PRODUCTS

# Clarien iBank – Online (Web Browser)

### How do I access Clarien iMobile?

Register here and learn more: [Personal Banking Clarien iSecure and iBank - Clarien Bank Bermuda](https://clarienbank.com/personal/) . If you are new to online banking click here to initiate your registration: <https://clarienbank.com/personal/> Click on iBank Personal, New to Online Banking and follow the instructions.

### Do I need my token to sign into iMobile?

Yes. You will need either a Security Key (hard token) or the Clarien iSecure App downloaded from either App Store or Google Play store on to your phone (Soft Token). You will need to Register your iSecure token to your phone using your Customer ID. Call 296-6969 for assistance with obtaining your Customer ID or come in to our Clarien + Lounge for in person assistance.

You will need your token to log into iMobile

Any other new transaction including adding a Beneficiary will require your token to authorize the transaction. You will still need your token to sign into your iBank profile from a desktop or web browser.

### Is there a charge to use iBank Mobile or the Soft Token?

No, there is no additional cost to use iBank Mobile or the Soft Token. If you lose your physical token, you can avoid the \$35 token replacement fee if you sign-up for the Soft Token.

### What devices can I use iBank Mobile on?

iBank mobile works on iPhone and Android platforms

### Which customers can use iBank Mobile?

iBank Mobile will be available for Retail and SME customers only. It will be not available for Commercial iBank clients at this time.

### What banking transactions can I perform with iBank Mobile?

You can perform Own Account, Local and International Transfers, Bill Pay and predefined (preauthorized) template transactions may all be completed via iBank Mobile

### Can I use both my existing token and the new Soft Token with my iBank Mobile?

Yes, you may use either token interchangeably to access iBank Mobile or the desktop version of Clarien iBank.

### Can I send Secure Messages from iBank Mobile?

You will only be able to read your secure messages on iBank Mobile. In order to send messages you will need to sign in on the desktop version of Clarien iBank.

### Is the Clarien Soft Token available to all customers?

Clarien Soft Token will be available for Retail, SME and Commercial clients.

### Can I use finger print authentication to access Clarien Soft Token?

Fingerprint authentication will be available with the Soft Token on android/iOS devices that meet the necessary hardware requirements.

Customers are reminded to beware of fraudulent websites and/or emails that falsely appear to represent Clarien. These sites or messages – known as “phishing” – are designed to steal your identity and fraudulently transfer money out of your online bank account(s).

### **Do not call suspicious numbers**

Emails that ask you to call a number that does not appear to be legitimate should be considered suspicious. Do not call the number – contact us directly instead.

### **Verify the Clarien website**

Use the site identity button of your web browser to verify that you are on a legitimate website prior to entering your username and password or answering security questions.

Your online security is important to us. To enhance your protection and decrease fraud probability, you are reminded of the following:

### **Protect Your OTP code**

Your OTP (One-time Password) is the number generated by your token to access your Clarien iBank account. Your OTP should never be shared.

**Use your [Clarien Soft Token](#) for easy iBank access:** For a secure, convenient way to authenticate transactions, download the Clarien Soft Token today from the Google Play or App Stores.

**Soft Token Prompts:** Only answer “Yes” to a soft token prompt if you are certain that you initiated an action. Clarien’s Client Service Centre will not initiate an action requiring a soft token prompt on your behalf. Immediately hang-up if someone claiming to be from Clarien asks you to do this and call the Client Service Centre directly on 441-296-6969 to report the incident.

For additional [online security measures](#), please visit [clarienbank.com](#).

### **Can I use more than one profile using the iSecure App?**

At this time a customer cannot use more than one profile with the iSecure App. A customer <can> use multiple Security Keys, or Hard Token, to access additional profiles. We are working on adding profiles to the iSecure App and will update customers when that is available.

## E-COMMERCE AND POINT OF SALE (POS) FOR COMMERCIAL CUSTOMERS

## Features & Benefits:

Clarien Merchant Services offers secure and flexible payment gateway services for customer transactions in Bermuda or around the world. Contact a Clarien Bank Commercial Relationship Manager to discuss your business and how our solutions might assist you to reach your goals.

- ✓ **Hosted Payment Page:** Integrate a secure, PCI compliant internet payment page into your website. Your sensitive customer payment information is securely handled by First Data, the world's leading provider of electronic commerce and payment processing services.
- ✓ **API (Application Programming Interface):** Allows you to build more sophisticated transaction processing applications that can process payments from a website or from multiple Point of Sale terminals.
- ✓ **Real Time Payment Manager (Virtual Terminal):** The combination of your personal computer, inventory management software and payment processing system turns your Internet-connected PC into a POS device without installing software. Virtual Terminals help you manage inventory, track sales, control costs, improve customer service and help you make better business decisions.

## Additional Information

Our e-commerce solutions provide you with the tools to:

- View transaction summaries, sale and refund activity
- Conduct cardholder inquires
- Manage administration functionalities
- Access fraud management tools
- Change passwords
- Manage user access and permissions

## What is PCI DSS

PCI DSS stands for Payment Card Industry Data Security Standard. This is a technical and broad-ranging set of security requirements created by the Payment Card Industry, outlining what business entities need to do to protect customer information. The PCI Council requires that business entities meet this set of security requirements if their business accepts, transmits or processes customer payment cards, such as credit cards or debit cards. Merchants that do not comply with these requirements can be penalized in a number of ways, up to and including having their card-processing privileges revoked, leaving them unable to accept customer payment cards

## Does PCI DSS apply to all businesses and service providers?

PCI DSS applies to ALL organizations or Merchants, regardless of size, that accept, transmit, or store any payment card information. In other words, if any customer of that organization ever pays using a credit card or debit card, then the PCI DSS requirements apply.

## What does a merchant have to do in order to satisfy the PCI requirements?

To satisfy the requirements of PCI, a Merchant must do two things:

Comply with the Data Security Standard by meeting all of the requirements laid out in the Data Security Standard.

Validate compliance. This means the Merchant must prove that they are complying with the Data Security Standard. Merchants must complete the following within the Clover Security portal.

Annual completion and submission by the merchant of a PCI Self-Assessment Questionnaire (the SAQ); and Monthly network vulnerability scan.

## Is there a fee for this service?

No. The risk assessment tool is complimentary.

## What is the PCI Self-Assessment Questionnaire or SAQ?

The Self-Assessment Questionnaire (SAQ) is a form that merchants are required to complete every year via Clover Security which is relayed to Clarien Merchant Services. It was created by the PCI Council. Completing a Self-Assessment Questionnaire helps merchants validate Compliance, by confirming compliance with the Data Security Standard and acknowledge to their Acquirer (Clarien) that they are in compliance with PCI DSS. Those merchants who are deemed medium to high risk ratings will be contacted by Clarien Merchant Services to review the SAQ and provide assistance with attaining compliance.

## What happens if I don't become PCI compliant?

If your business fails to become PCI compliant, you could be putting your business at greater risk from the growing threat of payment card data breaches and theft, which may result in substantial penalties (such as fines from banks, regulatory agencies, and card associations), fraud and charge backs, as well as legal costs and lost customers. If your business experiences a data security breach, you could even lose your ability to process credit card payments. Perhaps more importantly, you risk the loss of customers. We will monitor the completion of the SAQ document and revert back if your questionnaire is deemed medium to high risk.

## PCI Clover Security

The PCI Clover solution is a complimentary, online Self-Assessment Questionnaire (SAQ) and integrated scanning tool that helps merchants achieve and maintain Payment Card Industry Data Security Standard (PCI DSS) Compliance.

The Clover Security solution is a full service risk assessment tool provided by our Processor First Data used by merchants to achieve data security compliance.

PCI DSS is a technical and broad-ranging set of security requirements created by the Payment Card Industry, outlining what business entities need to do to protect customer information.

The Clover Security solution includes a guided, step-by-step SAQ tool to answer the annual questionnaire as well as an integrated scanning tool for merchants to perform monthly vulnerability scans.

For help with SAQ or PCI related questions, please call the Clarien Merchant Services support line at 294-4970.

PRIVATE BANKING

## Client Proposition

Includes all products offered to Personal / Commercial clients – cross reference with Personal and Commercial Product guide for further details but including premium demand accounts, CDs, treasury/foreign exchange services, mortgages and other loans, credit and debit cards, iBank/iBank Mobile among others.

- ✓ We embrace a spirit of innovation and entrepreneurship, acknowledging that even the most traditional enterprise benefits from disciplined creativity.
- ✓ For convenience and efficiency, we deliver seamless support through a single Private Banker supported by a team of asset management, estate planning, trust and corporate specialists dedicated to analysing, developing and optimising your solutions.

SPECIFICATIONS

INVESTMENT FUNDS	INVESTMENT OBJECTIVE
ILS Fund	The Insurance Linked Securities Fund seeks to achieve attractive risk-adjusted returns that are demonstrably uncorrelated with traditional asset classes by investing, directly and indirectly, in a diversified portfolio of insurance-linked investments.
North American Founders Fund	The investment objective of the North American Equity Class of Shares is to seek long term total return, measured in Dollars, in excess of the S&P500 index.
International Equity Class	The investment objective of the International Equity Class of Shares is to provide long-term capital appreciation primarily through investment in a diversified portfolio of publicly traded equity and equity related securities of company or other issuers in a number of countries throughout the world. Equity related securities can include convertible preferred shares, convertible debt obligations and warrants.
Small Cap Growth Class	To maximize long term capital appreciation, measured in U.S. dollars, through investment in publicly traded equity securities of small rapidly growing companies, or more established companies whose rates of earnings growth are expected to accelerate. Investments may be made in the securities of U.S. and Non-U.S. issuers.
Global Fixed Income Class	To provide income and long term capital growth primarily by investing globally in high quality debt securities of, or guaranteed by, governments, governmental agencies, other governmental entities and supranational agencies in the currencies of such countries. The pool also invests in high quality publicly traded debt securities, denominated in foreign currencies, of major corporations throughout the world. The manager follows a disciplined top down quantitative analytical process.
Preferred Shares Class	To seek long term capital appreciation and high current income, measured in US dollars, through investment in NYSE traded preferred equity securities. Investments will be selected on the basis of superior dividend yield of those companies with investment grade or higher credit ratings and may include traditional preferred, redeemable preferred, trust preferred, third party preferred and exchange traded debt securities as well as over the counter debt securities and euro dollar debt securities that meet the credit quality described above.

Features & Benefits:

- Outcome-oriented investing requires a strategic approach to asset allocation.
- We optimise portfolio construction by combining historical correlation matrices with forward asset-class return expectations.
- Our goal is to limit the variability of returns, reduce the frequency and magnitude of drawdowns, and maximise the exposure of portfolio capital to positive market movements.
- Our Global Voyager funds include an array of customised, multi-asset class investment solutions:
  - Equities — Tailored market strategies including enhanced, actively managed portfolios featuring carefully selected stocks, sectors and regions.
  - Fixed Income — On and offshore investment solutions that deliver regular returns at regular intervals for a stable income.
  - Alternative Assets — Flexible access to a range of markets for the sophisticated investor.

Requirements and Fees:

- All requirements & fees can be found in the GVFSL prospectus on Claiarenbank.com website as well as individual fund supplements.

See link for more details: [Global Voyager Funds Limited](#)

ASSET MANAGEMENT (CIL)- GLOBAL VOYAGER FUNDS (GVF) - continued

SPECIFICATIONS	INVESTMENT FUNDS	INVESTMENT OBJECTIVE
	Managed Balance Class	To provide medium to long term capital and income appreciation through investments across a broad set of asset classes. The funds employ a strategy that utilizes an optimized asset allocation approach and propriety investment selection process. The invested universe includes a mixture of corporate and government fixed income securities, global equity securities, and alternative investment vehicles.
	High Yield Bond Fund Class	The Investment Objective of the High Yield Bond Fund Class of Shares is high current income and capital appreciation through investments in high yield securities of US issuers. The adviser will seek to achieve the investment objective by generating long term outperformance through tactical allocation of capital towards the best risk-return opportunities available in the USD high yield corporate debt market.
	Alternative Investment Fund Class	the Company has established several Funds, each of which represents participation in a specific global capital market.

Features & Benefits:

- ✓ The Company has been structured to provide investors the opportunity to invest in a diverse global portfolio that can be customized for individual investment objectives
- ✓ Net Asset Value per Share will be determined as at each Valuation Day in accordance with the Bye-laws
- ✓ Fund Fact Sheets and Fund Prospectus and Supplements available outlining relevant information

Requirements and Fees:

- ✓ All requirements & fees can be found in the GVFSL prospectus on Clarienbank.com as well as individual fund supplements.
- ✓ Each Fund listed at bottom of the page with respective Fund Supplement underneath:

## INVESTMENT PRODUCTS AND OBJECTIVES

Fully customized based on the client's investment preferences and expectations and aligned with client Risk Tolerance. All key parameters specified in their Investment Policy Statement and Investment Management Agreement.

### Features & Benefits:

We deliver investment management and custody services with more than \$1 billion in assets under management.

Our Success is founded on three principles:

1. Successful client outcomes flow from a robust and dynamic investment process.
2. Access to key building blocks—many of which are exclusive or hard to replicate—is essential to portfolio construction and performance.
3. Success demands discipline and foresight to make nimble tactical shifts as the investment landscape changes—all while remaining focused on long-term outcomes.

We live by these principles and apply them in everything we do. They guide us our thoughts and actions, sharpen our focus and enable us to deliver superior value to our clients.

## Features & Benefits:

- ✓ Customer Profile: If you have a large portfolio of high-value assets, a complex financial profile, or property in a number of jurisdictions, your estate planning will require specialized knowledge and personalized services, particularly with respect to managing offshore assets. You might consider establishing a trust as part of your estate planning solution.
- ✓ Through Clarien Trust Limited (CTL), we will work with you to develop a sound blueprint for your financial legacy.
- ✓ Our team of experienced trust and estate practitioners can deliver licensed trustee/fiduciary, trust administration and accounting services, customised to your particular structure and needs. Our ethos is to serve you for generations, providing valuable reassurance and continuity for you and your family.
- ✓ Potential clients – reach out to us at: <https://clarienbank.com/wealth-management/trust-and-family-office/>

ULTRA HIGH NET WORTH / FAMILY OFFICE SERVICES

Public

## Features & Benefits:

- ✓ For many families, the cost, time and administrative expertise needed to create and provide proper supervision, capital and leadership over the day-to-day management of the family's personal and financial affairs, as well as the longer-term plans for inter-generational wealth transfer, can be daunting.
- ✓ For this reason, a family will often engage the services of a multi-family office manager to maximise the efficiency and effectiveness of their family office.
- ✓ A multi-family office manager enables cost sharing, continuity and provides a framework for oversight and leadership to support the team of professionals providing services to the family. Clarien provides a comprehensive range of services, leveraging our internal capabilities and external partners, to help family offices achieve their goals.
- ✓ Do you think you may qualify or want to learn more? See the following link: <https://clarienbank.com/wealth-management/trust-and-family-office/>

## Fees and Requirements:

- ✓ Client fees are specific to client needs and can be negotiated based upon highly customized service to be provided.
- ✓ Fees often comprise of either a flat fee (annually) or based on an hourly rate (based on the types of services provided).

Features & Benefits:

OVERVIEW

Enjoy the protection of Overdraft services offered only to Wealth Management qualified clients. The Clarien Unsecured Overdraft facility empowers select clients with the financial flexibility to confidently handle cash flow fluctuations and unexpected emergencies. Private Banking clients can conveniently link their Clarien Mastercard® debit card to their chequing account with an Overdraft facility for an alternative solution when the unforeseen occurs.

**WHAT IS AN UNSECURED OVERDRAFT FACILITY?** An unsecured overdraft facility is a line of credit made available to clients allowing them to carry a negative balance on their chequing account.

- It can be repaid at any time.
- It can be redrawn at any time.
- It is drawn through the use of the clients’ debit card; online debit transactions or writing cheques.
- Interest will only be charged on the amount utilized calculated on a daily basis.

Requirements and Fees:

- Negotiation Fee
- Negotiated Interest Rate: refer to Clarienbank.com for current Base lending rate. Interest rate could be flat (base rate only) or Base rate + spread based upon customer qualification requirements.
- Refer to [Clarienbank.com/fees](https://www.clarienbank.com/fees) for more details
